EDUCATION

Manhattan University

Riverdale, NY

Master of Science in Computer Engineering | May 2026

- **GPA: 3.96/4.0**

Bachelor of Science in Computer Engineering | May 2025

- **GPA: 3.75/4.0** *Magna Cum Laude*; Dean's List (2021-2025)

ISC2 Certified in Cybersecurity, January 2026

CompTIA Security +, July 2026

Google AI Professional, July 2026

WORK EXPERIENCE

Manhattan University

May 2023 – September 2023

IT Assistant

Riverdale, NY

- Imaged and deployed over **200 desktop computers** across seven academic computer laboratories using KACE K1000/K2000, ensuring consistent software configurations and efficient system rollouts.
- Configured and maintained computer labs, virtual servers, and networked workstations while providing technical support for faculty, staff, and students.
- Developed and executed deployment scripts to automate imaging processes and diagnosed hardware and software issues to minimize system downtime.

Georgetown Medical

August 2021 – April 2023

IT Support

Remote

- Provided remote technical support for physicians and administrative staff by diagnosing and resolving hardware, software, network, and user-access issues across multiple medical office locations.
- Administered user accounts, software installations, system updates, and secure remote access while ensuring compliance with organizational security and data privacy standards.
- Documented technical issues, implemented process improvements, and collaborated with vendors and internal teams to resolve complex IT infrastructure and application problems efficiently.

Projects

Neuromorphic Systems for Autonomous Space Cybersecurity, 2025 - 2026

- Researched neuromorphic neural networks for space cybersecurity; proved spoofing resistance via light-modulation testing with pDVS camera
- Conducted static and dynamic measurements for spoofing and tampering resistance of space systems

DDoS Cybersecurity Research, 2024

- Studied DDoS attack vectors and tested mitigations for black/grey hole attacks and TCP-SYN flooding
- Utilized honeypots and honeynets to test various network firewall settings to mitigate DDoS attacks

SKILLS & INTERESTS

- **Programming Languages:** Python, C, C++, Verilog, Java
- **Software & Tools:** IKACE K1000/K2000, Code Composer Studio, Microsoft Excel, Windows, PC Imaging, Visual Studio Code
- **Technical Skills:** Computer Imaging & Deployment, Hardware & Software Troubleshooting, Server Configuration, Technical Support, System Maintenance, Script Automation
- **Interests:** PC Building, Embedded Systems, Artificial Intelligence, Technology Innovation, Game Development
